Dear Colleague,

We invite you to join us for the Second Biennial International Conference of the IARPP. This conference locates Relational Theory in the larger domain of psychoanalytic discourse by comparing it with seven theories of psychoanalysis. To flesh out discussion between differing clinical theories, four plenary panels will showcase the clinical work of relational psychoanalysts, which will then be discussed by psychoanalysts representing traditional psychoanalytic perspectives. Intra-panel discussion will tease out similarities and differences in how the participants conceptualize the clinical material. Following each of these plenary presentations, relational psychoanalysts will facilitate interaction between the audience and the panelists. **The four clinical case panels** will examine the continuities and discontinuities in theory and clinical practice between **Freudian Theory** (Panel I), **Kleinian Theory** (Panel II), **Self Psychological Theory** (Panel III), and **Jungian and Lacanian Theories** (Panel IV) and the **Relational Perspective**.

In addition to these clinical case panels, two luncheon panels will explore the historical contributions of **British Object Relations Theory** and **Interpersonal Theory** to the **Relational Perspective**. On the last day of the conference, **Panel Five** will focus on points of integration among all of the theories introduced over the weekend. Finally, **Panel Six** will examine the future of the **Relational Perspective**.

During the day on Thursday, and preceding the opening of the Main Conference that evening, several optional **Master Class Programs** will be offered, entertaining such topics as:

- ◆ Key Concepts in Relational Psychoanalysis
- ◆ Parallels between Contemporary Self Psychology and Relational Theory
- ◆ An Introduction to the Life and Work Of Stephen Mitchell
- ◆ Social Responsibility
- ◆ Inclusivity in Relational Psychoanalysis
- ◆ Child Analysis
- ◆ Buddhism and Psychoanalysis.

This conference will feature **more than 70 internationally renowned psychoanalysts** helping capture the place of the Relational Perspective within the larger canon of psychoanalytic discourse. While being intellectually stimulating, this conference will also seek to create a community atmosphere, embracing individuals from all psychoanalytic persuasions, encouraging them to both work and play with the rich cornucopia of ideas we all behold as part of our deep appreciation of psychoanalysis.

We welcome your participation in this exciting, cutting edge conference. Please join us!

Cordially,

Philip A. Ringstrom, PhD, PsyD	Conference Chair
Jody Messler Davies, PhD	Conference Co-Chair
Spyros D. Orfanos, PhD, ABPP	Conference Co-Chair
